

Discover how BRITA Water Dispenser Solutions elevate your organisation.

Commercial-Grade Water Solutions

Drink better. Do better.

Filtration you can trust.

The heart of dependable hygiene.

Tap water is more than H₂O – it's the simplest and safest way to stay hydrated, to maintain the normal physical and cognitive functions and to maintain the normal regulation of the body's temperature. By its nature, it carries minerals and compounds that affect how it looks, smells and tastes – varying greatly from place to place.

This is where BRITA comes in. Since 1966, our German-made filters have combined expertise with quality. They remove unwanted substances while preserving the right balance of minerals – for water that's safer, refreshing and delicious, no matter where in the world. The filtration also protects your water dispenser, extending its lifespan for long-term performance.

Especially in sensitive environments, hygiene is crucial. With 20+ years of healthcare expertise, BRITA ensures reliable hygiene through accredited solutions. The result: cleaner, safer, and great-tasting water you can rely on – every day.

Contact us today: www.brita.com.au

Filtration power for your needs.

With BRITA's proven filtration solutions, you can be sure of excellent tasting water – meeting high hygiene, quality and environmental standards.

Activated carbon

Reduces substances that impair taste and odour.

Ion exchanger

Minimises limescale and metals, e.g. lead.

Membrane

Filters out bacteria and cysts.

Whatever your local water condition is like, BRITA makes sure it works for your organisation. Staff stay hydrated more easily, guests enjoy a better experience, and patients can always rely on safe refreshment.

Filtration and hygiene that pay off for your business: our solutions protect your equipment, reduce service needs, and cut costs – all while fitting seamlessly into your daily routines.

Contact us today: www.brita.com.au

Taste the difference. In every sip.

Water is a natural dissolver: as it travels through soil, treatment and piping, it absorbs substances that influence how it looks, smells and tastes. And taste matters – because the better water tastes, the more we tend to drink.

That's why BRITA optimises the sensory profile of drinking water. Our dedicated Taste Force, including certified water sommeliers, provides on-site guidance, training and sensory expertise – a unique offering in the industry. This way, we help ensure your water is as enjoyable as it is refreshing, supporting hydration habits across your organisation.

Good hydration is the basis for our body's metabolic processes. Water contributes to the maintenance of normal physical and cognitive functions. And staying hydrated is easier if water tastes good.

That's why we have a special department dedicated to taste: the BRITA Taste Force.

Birgit Kohler

Head of BRITA's Organoleptic Department, certified Water Sommelier

SENSORY DIMENSIONS OF

MOUTH FEEL

Specialist Filtration Range

You can be sure of excellent water meeting the highest standards as well as delighting the tastebuds with proven filtration solutions from BRITA.

CLARITY Protect

Reliably safe, excellent water for your dispenser with multi-stage filtration.
(Top Pro, C-Tap)

CLARITY Safe X3

A bacterial filter for outstanding hygiene in critical environments.
(Top Pro)

PURITY C300 Quell

Excellent filtration for hot water (C-Tap)

Your taste. Your temperature.

Hot or cold – always the perfect choice.

When dispensing cold still or sparkling water

- Enjoy on-tap refreshment with improved taste – every time
- Convince with crystal-clear water, free from cloudiness
- Profit from reliable water dispenser operation with outstanding safety and hygiene

When dispensing hot water

- Experience full aroma and flavour for better tea and coffee
- Save costs through reduced limescale build-up for long-lasting equipment
- Ensure consistent performance and trusted water quality across all locations

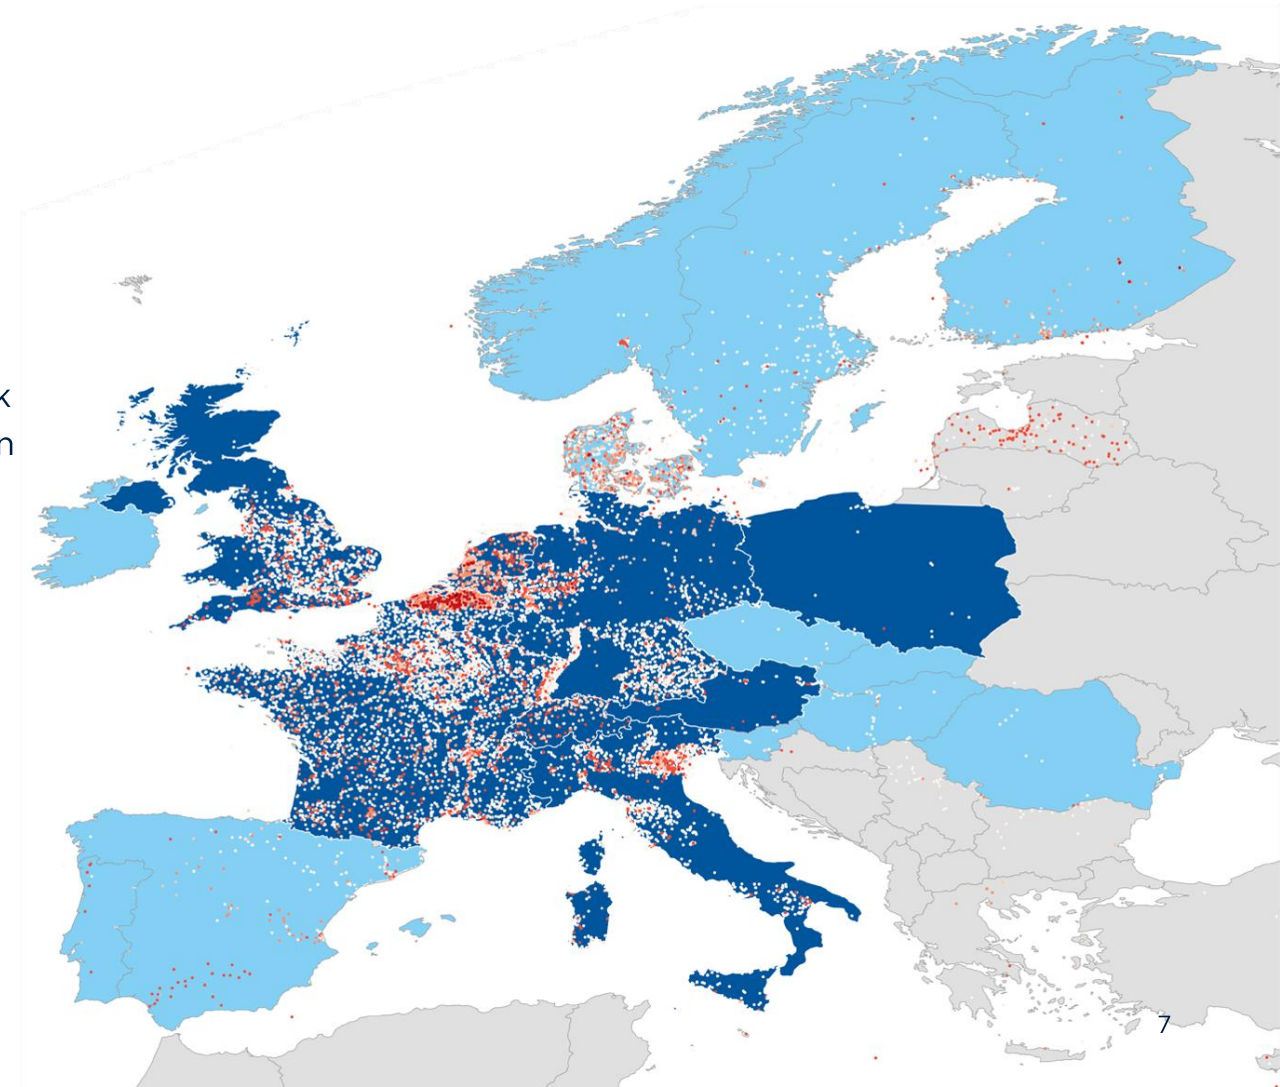

Protecting water, protecting health.

How BRITA is tackling a growing concern.

PFAS (per- and polyfluorinated alkyl substances) are man-made chemicals, used by industry in countless everyday products – from cookware to clothing and cleaning agents. They're often called “forever chemicals”. Persistent and resistant, they enter water, soil and even the human body, raising concerns about long-term health effects.

With BRITA you can rely on proven protection: The activated carbon block in our CLARITY Protect filter reduces over 99 % of total PFAS* – a sorption method recommended by experts. This ensures your employees, guests and patients can enjoy refreshment with complete confidence.

* tested by independent laboratory according to NSF/ANSI Standard 53
** information provided by banpfasmanifesto.org

CLARITY Protect

Water filter: Reliably safe,
excellent water for your dispenser.

Reduces*:

- Particles such as microplastics and sand
- Per- and polyfluoroalkyl substances (PFAS)
- Metals such as lead
- Pharmaceuticals, pesticides and hormones
- Chlorine taste and odour
- Organic impurities
- Asbestos fibres
- Removes bacteria and microbial cysts

*If present in the tap water

Contact us today: www.brita.com.au

NSF component listed**

*applies to all materials that come into contact with water. ** Tested in a generic housing to a capacity of 11,500 l at 3 LPM for the reduction of Chlorine, Taste and Odour, and Cyst. Health effect testing per NSF/ANS Standard 53 (tested by an independent laboratory)

CLARITY Protect

Water filter: Reliably safe,
excellent water for your dispenser.

Mains water is strictly controlled. But healthcare and similar environments where hygiene is of the utmost importance demand an extra level of safety. CLARITY Protect delivers this through multi-stage filtration, rather than a single activated carbon filter. CLARITY Protect sets the industry benchmark from the first stage of filtration to the moment your glass is filled with crystal-clear, refreshing water. We offer you over 50 years of filtration expertise in our “standard” filter.

The right balance —
preserves minerals in water

CLARITY Protect reduces*:

Fine particles such as microplastics or sand

Metals such as lead

Pharmaceuticals, pesticides and hormones

Chlorine taste and odour

Organic impurities

Bacteria and cysts

Asbestos fibres

PFAS

*If present in the tap water

Activated carbon filtration reduces substances that impair taste and odour

Pre-filter removes coarse particles

Hollow fibre membrane
Nominal pore size of 0.15 µm filters out 99.999 % of bacteria and 99.95 % of cysts

Filter capacity:
Protect: 11,500 l

Exceptionally clean, safe water

Protects equipment
lowering dispenser maintenance costs

CLARITY Protect

Technical data

Model	BRITA CLARITY Protect 100
Operating pressure	activated carbon and hollow fibre membrane filtration
Water intake temperature	4°C to 30°C
Ambient temperature for operation	4°C to 40°C
Ambient temperature for storage / transport	-20°C to 50°C
Water inlet and outlet connection	JG 8 mm
Operating pressure	2 bar to 8.6 bar
Flow rate at 1 bar pressure loss	180 l/h
Nominal filter capacity	11,500 l
Operating position	horizontal or vertical
Efficacy	
Reduction of particles such as microplastics or sand	≥ 0.5 µm (NSF 42, Class I)
Reduction of asbestos fibres	> 99.9 % (NSF 53 tested by independent laboratory)
Reduction of PFAS	> 99 % (NSF 53 tested by independent laboratory)
Reduction of metals such as lead	> 90 % (DIN EN 14898)
Reduction of chlorine	> 90 % (DIN EN 14898, Class I) and > 50 % (NSF 42)
Reduction of organic impurities such as benzene	> 90 %
Reduction of pharmaceuticals, pesticides and hormones such as naproxen, lindane, estrone	> 90 % up to at least 8,000
Reduction of bacteria	99.999 % (ASTM F838-20)
Reduction of cysts	99.95 % (NSF 53)
Dimensions (W x D x H)	
Filter system (filter head with filter cartridge)	68 x 68 x 338 mm
Filter cartridge	68 x 68 x 311 mm
Installed dimensions (vertical installation with wall mounting bracket)	68 x 74 x 371 mm

PURITY C Quell ST

Excellent filtration designed for hot water dispensers.

Reduces*:

- fine particles such as sand
- metals such as lead
- carbonate hardness
- chlorine taste and odour
- organic impurities

PURITY C 300 Quell ST

Water filter: Excellent filtration designed for hot water dispensers.

Need piping-hot water? That's no problem for the PURITY C Dispenser cartridge, designed with hot water in mind. It protects the dispenser by reducing water hardness, tackling the common problem of limescale build-up head on. It also reduces unwanted, taste-impairing substances. And with its IntelliBypass® feature, you can control the degree of hardness – just the right amount, for instance, to prepare a perfect cup of tea.

IntelliBypass® for achieving the ideal mineral composition

Post-filter An extra layer of filtration for perfect results

Activated carbon filtration reduces substances that impair taste and odour

Filter capacity:
PURITY C300: 4,000 l

PURITY C 300 Quell ST reduces*:

Fine particles such as sand

Metals such as lead

Carbonate hardness

Chlorine taste and odour

Organic impurities

*If present in the tap water

Ion exchanger reduces limescale and metals e.g. lead

Adjustable water hardness
For great-tasting and perfect hot drinks

Pre-filter removes coarse particles

Protects equipment lowering dispenser maintenance costs

PURITY C 300 Quell

Technical data

Model	BRITA PURITY C 300 Quell
Technology	decarbonisation
Capacity 1 at a carbonate hardness of 10°dH / bypass setting of 40 %	2,784 l
Max. operating pressure	2 bar to max. 8.6 bar
Water intake temperature	4 - 30 °C
Nominal flow	60 l/h
Pressure loss at nominal flow	0.25 bar
Dimensions (W x D x H) of filter head with filter cartridge	125 x 119 x 466 mm
Weight (dry / wet)	2.8 / 4.2 kg
Connections (input / output)	G 3/8" or John Guest 8 mm
Operating position	horizontal and vertical

¹ The capacities given have been tested and calculated on the basis of normal application and machine conditions.
Due to external influences (e.g. variations in raw water quality and/or machine type), deviations from these results can occur.

CLARITY Safe X3

Water filter: A bacterial filter for outstanding hygiene in critical environments.

Works in conjunction with CLARITY Protect and in addition:

Reduces*:

- Fine particles such as microplastics
- Bacteria
- Removes microbial cysts

*If present in the tap water

CLARITY Safe X3

Water filter: A bacterial filter for outstanding hygiene in critical environments.

The CLARITY Safe X3 filter is an additional filter to CLARITY Protect in the BRITA HygienePlus solution. It sits just upstream of the dispenser outlet tap. When you draw water, CLARITY Safe X3 **reduces** any last remaining bacteria, microbial cysts and other unwanted impurities – right there and then. This final layer of protection **ensures** water of impeccable quality and hygiene every time.

Second safeguard in combination with CLARITY Protect, filters water while dispensing

PURITY C Dispenser reduces*:

Fine particles such as microplastics

Fine particles such as sand

Bacteria

Microbial cysts

*If present in the tap water

CLARITY Safe X3

Technical data

Model	BRITA CLARITY Safe X3
Operating pressure	2 bar to 10 bar
Flow rate at 1 bar pressure loss	180 l/h
Nominal filter capacity	replace after 6 months
Particle retention	0.2 µm (nominal)
Reduction of bacteria	99.99999 % (ASTM F838-05)
Reduction of health contaminants such as cysts	99.95 % (NSF 53)
Operating position	Horizontal or vertical
Dimensions (W x D x H)	
Filter cartridge	86 x 86 x 112 mm

Clear water. Peace of mind.

Want to know what BRITA filters out of your water? Here's an overview.

Fine particles

Primary and secondary microplastics from plastic products, tyres, cosmetics, and cleaning agents.

Particles

Limescale, gypsum, sand, and rust released from pipe corrosion.

Metals

Lead, copper, nickel, zinc, and iron from outdated pipes.

Chlorine

Chlorine compounds and disinfection by-products that affect taste and smell.

Organic contaminants

Natural and industrial chemicals, solvents, and pesticide residues.

Water hardness

Minerals such as calcium and magnesium that cause limescale.

Bacteria & microbes

Germs multiplying in mains water, especially in stagnant water.

Pharmaceuticals

Residues of painkillers, hormones, and other drugs in water.

Asbestos fibres

Fibres released from old asbestos-cement pipes.

PFAS

Man-made, persistent "forever chemicals" from industrial sources.

Hygiene you can **count** on.

Reliable protection –
from production to daily use.

With BRITA, hygiene is built in – from the very start. Every water dispenser is microbiologically tested, disinfected and delivered ready for use. On-site, our technicians follow strict safety procedures, ensuring seamless installation and long-term operational quality.

In daily use, the innovative BRITA HygienePlus feature combines our ThermalGate™, PureProtect, and advanced filtration technologies. Together, they safeguard water against bacteria, cysts, particles and unwanted substances – supporting your organisation with **reliable** hygiene and peace of mind in every environment.

BRITA ThermalGate™

Hygiene feature: The patented thermal disinfection solution from BRITA.

The tap of a typical water dispenser is exposed. A sneeze or touch of a hand can introduce germs. Without a robust safeguard, microorganisms on the wet tap can go on to contaminate the dispenser. That's why our BRITA water dispensers include our ThermalGate™ feature. This regularly heats the tap to protect against contamination automatically. You can sit back and relax – knowing your water dispenser has a proactive, powerful defence against germs, tested by an independent laboratory (Ruhr District Institute of Hygiene).

BRITA PureProtect

Inspiration from nature, innovation from BRITA.

In the world of nature, animals would rather drink from a running stream than a still pond. Their natural instinct has inspired PureProtect, our latest innovation for pristine drinking water. This smart self-cleaning feature complements and improves our trusted hygiene technology, giving you clean, pure-tasting water. Anytime and every time.

Water must flow! Our intelligent self-circulating mechanism makes sure that water never stands still.

It keeps water in the dispenser in motion, giving bacteria and germs no chance to settle and multiply. And with no flushing required, there's no wasted water, either.

Like running water, we at BRITA never stand still when it comes to fresh ideas for drinking water! PureProtect is the first self-circulating dispenser on the market: BRITA innovation, inspired by nature.

Watch our
video on
YouTube

Innovation first: BRITA is dedicated to new ideas and making the good even better. PureProtect is the first self-cleaning dispenser on the market.

Self-cleaning function: 99 % less germ and bacteria build-up with PureProtect when the dispenser is inactive.*

Continual filtration: The standing water volume of approx. 2 litres is circulated through the CLARITY Protect 100 inlet filter.

Taste the freshness: Our repeat activated carbon filtration ensures pure-tasting, refreshing water every time.

Smart adaptation: The smart system adapts to user behaviour. It adjusts cleaning frequencies based on usage patterns, ensuring optimal cleanliness and convenience, making your cleaning routine easier.

Sustainability: No flushing required! PureProtect saves 680 litres/year, cutting sanitisation water usage by 98 %.**

BRITA HygienePlus

This industry benchmark delivers the outstanding degree of protection demanded by hygiene-sensitive environments. We've developed it through over 20 years' experience working in the healthcare sector. An excellent filtration performance reduces potentially health-affecting bacteria, microbial cysts, microplastics, pharmaceuticals, legionella, and E. coli.

The BRITA HygienePlus solution consists of four safeguards, plus smart digital monitoring for additional safety. From the moment you draw water, our multi-stage filtration system is working together with smart monitoring. You can depend on fresh-filtered, hygienically pristine, crystal-clear water to quench thirst, every time.

BRITA HygienePlus has been tested in numerous studies at hygiene institutes, including the University Medical Centre of Johannes Gutenberg University Mainz, confirming microbiological safety according to DIN 6650-8.

BRITA HygienePlus

An industry benchmark hygiene feature.

- The BRITA CLARITY Protect filter at the inlet features a pre-filter for removing coarser particles, activated carbon filtration for taste and odour reduction, and hollow fibre membrane filters for removing pharmaceuticals, organic impurities, and metals like lead. The membrane filters out 99.999 % of bacteria and 99.95 % of cysts.
- PureProtect is BRITA's innovative self-cleaning feature. The standing water volume of approx. 2 litres is circulated through the Protect 100 inlet filter, ensuring thorough cleaning and ultimately improving taste. The smart system adapts to user behaviour, adjusting cleaning frequencies based on usage patterns.
- The BRITA CLARITY Safe X3, located upstream of the dispenser tap, employs a very fine, asymmetrical double-layer membrane to remove remaining bacteria and microbial cysts. It also filters out microplastics, 99.99999 % of bacteria, and 99.95 % of cysts.
- BRITA's powerful ThermalGate™ feature regularly heats the dispenser outlet tap automatically. This shields against contamination from external sources, such as touching the tap and aerosol droplets from sneezing or coughing.

A focus on health and well-being.

Proper hydration is essential for peak performance at work and overall health. Why? Because it fuels energy, focus and productivity.

With BRITA Water Dispensers, you provide crystal-clear, great-tasting water that motivates people to drink more. By combining hygiene, taste and convenience, BRITA helps your organisation create healthier routines and ensures you feel and function at your very best.

- Adults lose 1.5–2.5 l water daily and need to refill regularly*.
- General guideline: 35 ml water per kg body weight (≈2.5 l for 70 kg)**.
- Dehydration can cause fatigue, poor concentration and long-term health risks***.

What do our customers think?

1

The biggest single impact that the BRITA water systems has had on our business would be the sustainability goals that we're trying to achieve which is zero waste where possible. I believe having the system leads us one step closer to those goals. It is delivering on our sustainability goals towards zero waste but also operational efficiencies and cost savings.

James Wilson, General Manager, Novotel Christchurch Airport

4

I chose BRITA because they are a market expert. I felt that they had the right calibre and standards for BNP Paribas.

*Hospitality & Catering Manager | BNP Paribas
Michael Flatter*

2

To have a good source of water in the highest quality, with different options on the spot whenever you need is fantastic, for all of us. We are very proud to have the system in our new office

*Marko Walde, Executive Director,
German-Australian Chamber of Industry & Commerce*

5

We now have no deliveries of bottles of water coming in, and therefore no wasted plastic or glass. We are no longer wasting energy by boiling more water than we need or having to run the tap to wait for it to get cold.

*Site Facilities Manager | Jewish Care
Lindsay Forrest*

3

I think part and parcel of the original plan to involve BRITA was its environmental friendliness. And the project was very successful.

*Contracts Manager | Springer Nature
John Haskell*

6

Using the BRITA system meant that we didn't have to transport pre-bottled mineral water, which has helped us reduce our carbon footprint.

*Brand Manager for ACS | University of Sheffield
Katie Butler*

Novotel Christchurch Airport

Redefining hospitality towards zero waste

- Outstanding sustainability strategy of the reduction of single-use plastic while delivering a superior experience for guests.
- With 4 water types, filtered water is offered as a premium and elevated solution.
- Installation of Top Pro systems on every floor in 2025 for an elevated guest experience.

Moving towards a sustainability and premium experience

- Elimination of 70,000 water bottles per year and cost savings of \$54,000 per year for drinking water supply in the rooms.
- Significant time and resource savings by eliminating previous bottle handling (purchase, storage, cooling, transport).
- Positive effect towards Novotel sustainability goals.

“The biggest single impact that the BRITA water systems has had on our business would be the sustainability goals that we’re trying to achieve which is zero waste where possible. I believe having the system leads us one step closer to those goals. It is delivering on our sustainability goals towards zero waste but also operational efficiencies and cost savings.”

James Wilson, General Manager, Novotel Christchurch Airport

BRITA

German-Australian Chamber of Industry & Commerce

Engineered for reliable sustainability

- Delivering industry-leading reliability in the new office, while advancing sustainability and employee wellbeing.
- Sparkling water availability a highlight feature valued by employees and guests.
- An Extra C-Tap seamlessly fits within the new contemporary office.
- Aligned values of innovation with BRITA.

Operational efficiency & cost savings

- Transitioned away from outdated, high-maintenance systems that no longer met workplace needs.
- Enhanced sustainability and efficiency while supporting a healthier, more collaborative environment.
- Realised substantial savings by eliminating maintenance, cleaning and servicing demands.

“To have a good source of water in the highest quality, with different options on the spot whenever you need is fantastic, for all of us. We are very proud to have the system in our new office”

Marko Walde, Executive Director, German-Australian Chamber of Industry & Commerce

Novotel London

On the way to a plastic-free hotel

- 4 star hotel with over 200 bedrooms plus fitness, sauna and conference rooms.
- Outstanding sustainability strategy with the radical reduction of single-use plastic, encouraging guests to change their thinking in an environmentally friendly direction. Filtered water is presented as a particularly sustainable solution.
- Installation of 15 Top Pro devices in total (2022/2023): for every hotel floor and in the reception and restaurant. Branded Swing bottles in the hotel rooms.
- Branded Wave bottles in the restaurant area and for all employees.

Guests give very positive feedback

- Elimination of 70,000 water bottles per year and cost savings of 30 % for drinking water supply in the rooms.
- Significant time and resource savings by eliminating previous bottle handling (purchase, storage, cooling, transport).
- Positive effect on the hotel's ecological footprint.

“Our guests expect ever higher sustainability standards. Partnering with BRITA and investing in water dispensers was an easy way for us to reduce our home's environmental footprint.

Not only does having a water cooler on every floor have a huge impact on waste reduction and a 30 % cost savings for our hotel, but this initiative is also such a positive one.

Evoked response from our guests and significantly improved our environmentally friendly' rating in our customer surveys.”

Giada Melegoni, Front of House Operations Manager, Novotel London

Aramark

Food and facility service

- Equipping a state-of-the-art Berlin company with 3,500 employees.
- Summer 2023 installation:
 - a total of 56 I-Tap systems distributed throughout the building.
- BRITA and Aramark have worked together successfully for years.
- Payback at 1-2 years.

Shared values

“The technology and design in line with hygiene safety were our motivations for cooperation. Not to mention the quality of service and the overall quality standards of the water experts, which are 100 % consistent with our values as a service provider.”

“You have to offer an offer for everyone. This applies to foods up to coffee specialties and, of course, to drinking water. Chilled, ambient, still, medium, sparkling or hot for tea and Ayurvedic indulgence. We have the right solution for every need.”

“I haven’t experienced a customer in over 20 years who has rededicated to a pipe-connected water dispenser.”

Erbil Sayin, Manager Operations Refreshment Services Germany, Aramark
