Total solution, High capacity for 600 cups per minute with eco-friendly refrigerant R290. BRITA filtration technology. Controlled flow and instant hot draw off. Suitable to fill bottles.

## World-Class Customised Service

Service agreements, dedicated support, expert technicians, customised installation, water monitoring, and testing. Nationwide availability (AU/NZ) with white glove care. Tailored setup for personalised taste profiles.

# Sustainability at our Core

Our goal is to operate more sustainably - and to support our customers in doing the same. But sustainability is not a destination. We are on our way, every day, every minute. Just as we measure sales and profit, we measure our Planet Contribution to see how we're doing.

In 2022, EcoVadis awarded us with a silver medal for business sustainability. This puts BRITA in the top 20% of the 100,000+ companies assessed by EcoVadis – the largest and most trusted supplier of sustainability accreditation.

We're proud of this award, of course. But it also points to areas where we can do even better. In the upstream supply chain, and even better downstream, shaping sustainable solutions for today and tomorrow.

## Built to perform

Considered energy use, refrigerants, parts and materials. Our dispensers have a built-in cooler with a natural refrigerant. That means you can enjoy chilled water with no need for power hungry refrigerators.

## Responsible resource usage

We promote efficient resource utilisation throughout our operations using 100% green power for manufacturing. Innovative speed-fit doors in our warehouses reduce power and heating costs. Water consumption lowered by reusing grey water. We take care to use as little plastic as possible throughout the value chain as well as work with likeminded suppliers.

## Social Responsibility

A proud family-owned company we are determined to do the best for nature, environment and people to Foster social responsibility to create positive impacts in communities. Providing sustainable water solutions for a better future.

# BRITA's Sustainability Commitment

Minimising our Environmental Impact at Every Stage.

From the very beginning, we are dedicated to minimising our environmental impact and promoting sustainable practices.

# EcoVadis Silver Medal

In 2022, EcoVadis awarded us with a silver medal for business sustainability. This puts BRITA in the top 20% of the 100,000+ companies assessed by EcoVadis – the largest and most trusted supplier of sustainability accreditation.

We're proud of this award, of course. But it also points to areas where we can do even better. In the upstream supply chain, and even better downstream, shaping sustainable solutions for today and tomorrow.

## BRITA strengths across the 4 EcoVadis themes

### Environment

- Renewable energy: 70% + of BRITA Group's total electricity requirements from renewable sources
- ISO 14001 Environmental Management certified
- Product takeback programmes and recycling: e.g., 100% of ion exchange resin from BRITA Professional filter cartridges returned to the cartridge cycle

### Labour and Human Rights

- Policy on diversity, discrimination, child labour, working conditions, employee health and safety
- Implementation of a works council
- Employee satisfaction survey

### Sustainable Procurement

- Supplier assessment to REACH requirement
- On-site audits of suppliers on environmental and social issues
- Integration of social or environmental clauses into suppliers' contracts

### Ethics

- Policy on anti-corruption and bribery issues including approval procedure for sensitive transactions
- Policy on anti-competitive practice issues such as price fixing or bid rigging
- Awareness training on ethics issues for employees

# Passionate about water, passionate about you

Enabling organisations like yours to enjoy smarter water choices has been our family business since 1966.

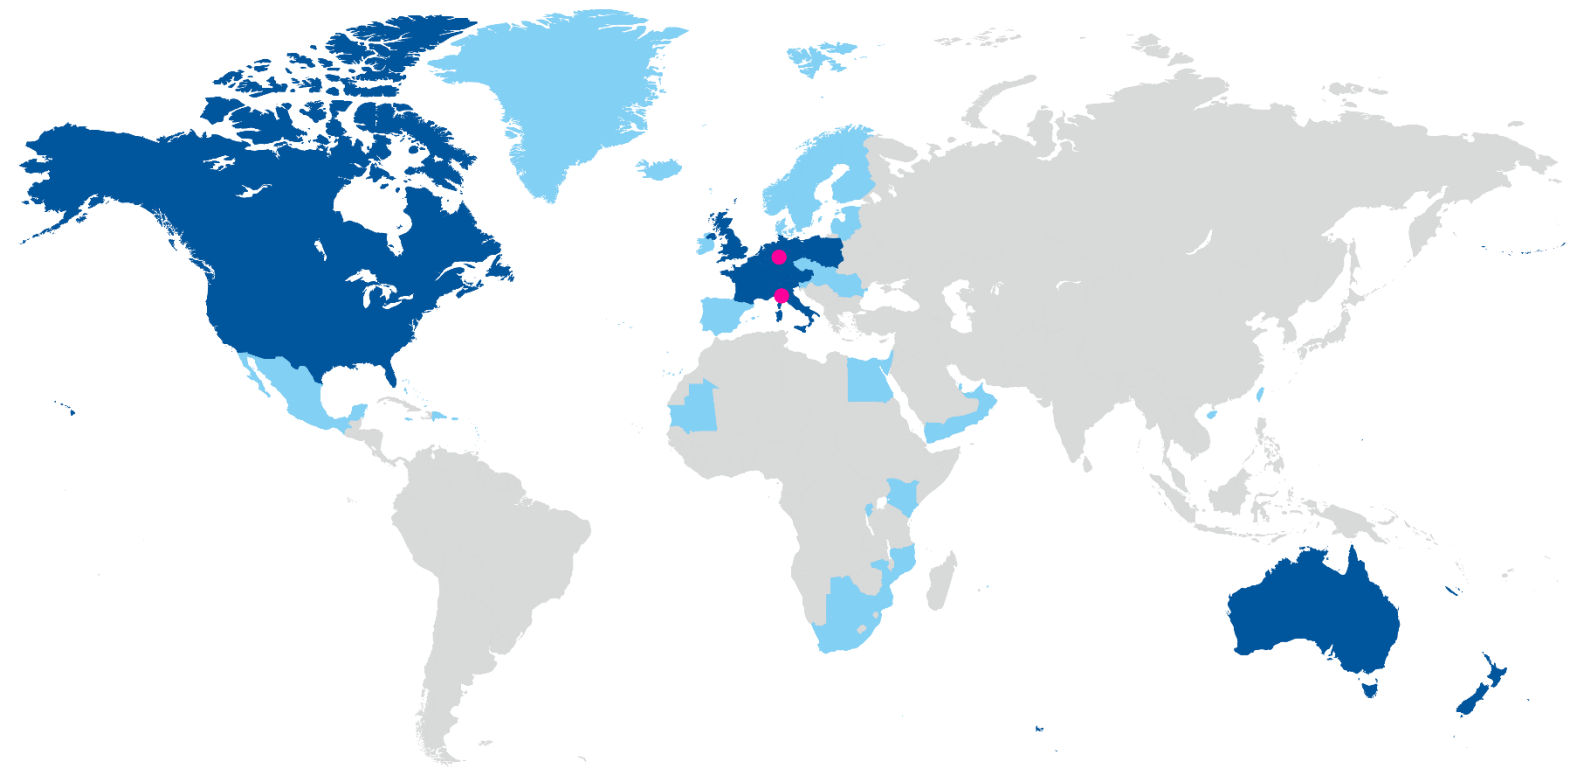

Water is our source of life, our everything. With this belief, Heinz Hankammer founded the company in Taunusstein, Germany, in 1966. The fascination for water continued under his son Markus Hankammer and guides our actions to this day.

Today, BRITA offers professional filtration solutions and mains-fed dispensers in addition to consumer products. Every day, over 95,000 BRITA water dispensers serve more than 2.5 million people in workplaces worldwide. These range from famous car manufacturers, to leading hospitality chains, to tech companies in Silicon Valley.

When it comes to smart drinking water choices, we know a thing or two. We combine over 50 years' experience with a broad product portfolio and corresponding services. So, you're sure to find just the right solution for you.

## German technologies – worldwide applications

BRITA is a global brand, with products sold in 70 countries on all five continents. BRITA dispensers are made in Germany and Italy, and are available in 57 countries, including in EMEA, Australia and North America. What's more, we offer customers dedicated international key account management.
